Graph Mark Scheme
• X-axis labelled with correct unit
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• At least four points correctly plotted
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• At least four points correctly plotted
• Points plotted with a X and not a dot
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• At least four points correctly plotted
• Points plotted with a X and not a dot
• Points joined with a smooth curve
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• At least four points correctly plotted
• Points plotted with a X and not a dot
• Points joined with a smooth curve
• Graph given a suitable title
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• At least four points correctly plotted
• Points plotted with a X and not a dot
• Points joined with a smooth curve
• Graph given a suitable title
• Graph drawn in pencil
• X-axis labelled with correct unit
• Y axis labelled with correct unit
• X-axis has an appropriate scale
• Y-axis has an appropriate scale
• At least four points correctly plotted
• Points plotted with a X and not a dot
• Points joined with a smooth curve
• Graph given a suitable title
• Graph drawn in pencil
• Graph takes up ¾ of page
