

Topic	Assessing prior knowledge	Level	For all age groups
Outcomes	Students complete a spider diagram to show: 1. What they already know 2. What their partner already knows 3. What the class already knows		

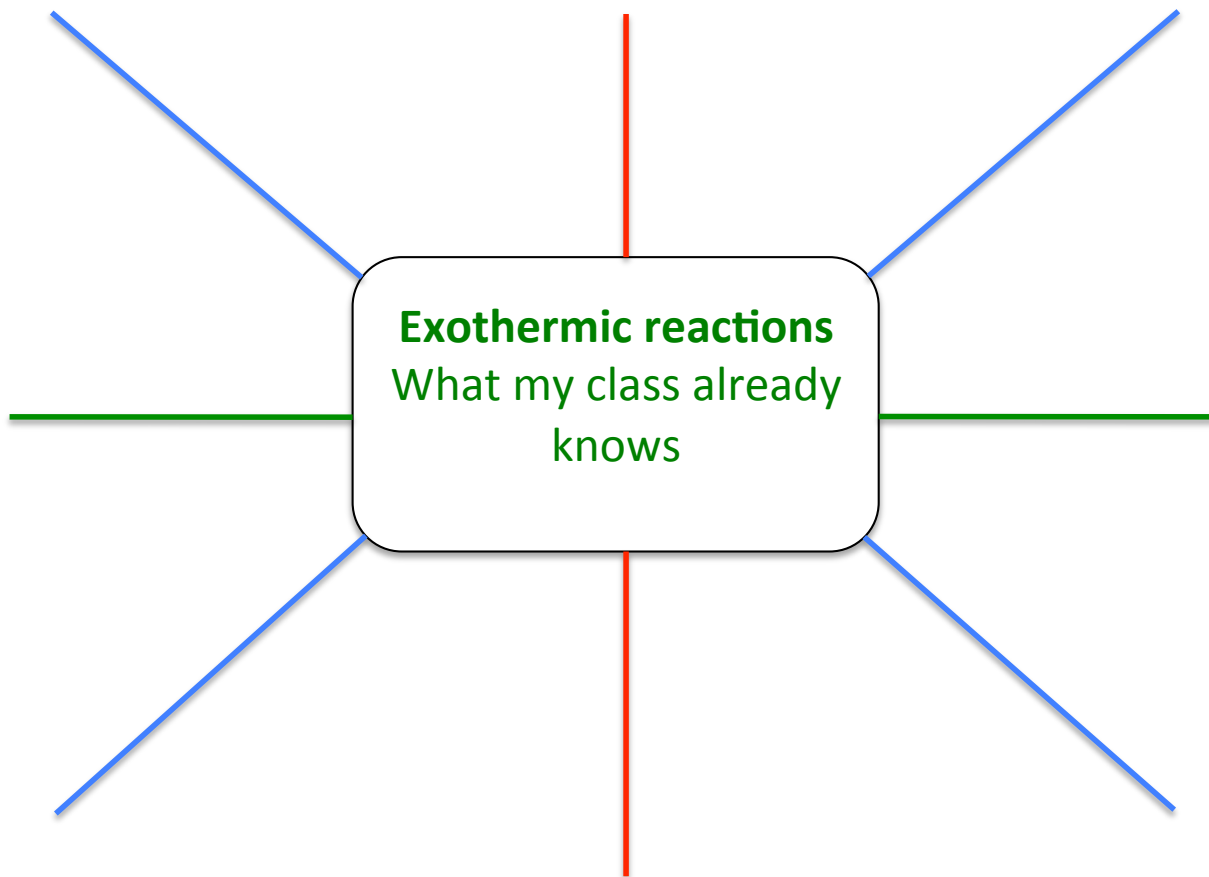

Step 1. Sketch and complete this spider diagram into your book using a blue pen to show what you know already about this topic.

Step 2. Now discuss your spider diagram with your partner. Can you **add** their ideas onto your spider diagram using a **red pen**.

Step 3. Now discuss your spider diagram as a class. Can you **add** the class ideas onto your diagram using a **green pen**. The teacher may help by putting everyone's ideas on the board.

Exothermic reactions
What I, my partner and
my class already know
