

Filtration

Filtration is used to _____

Label the diagram:

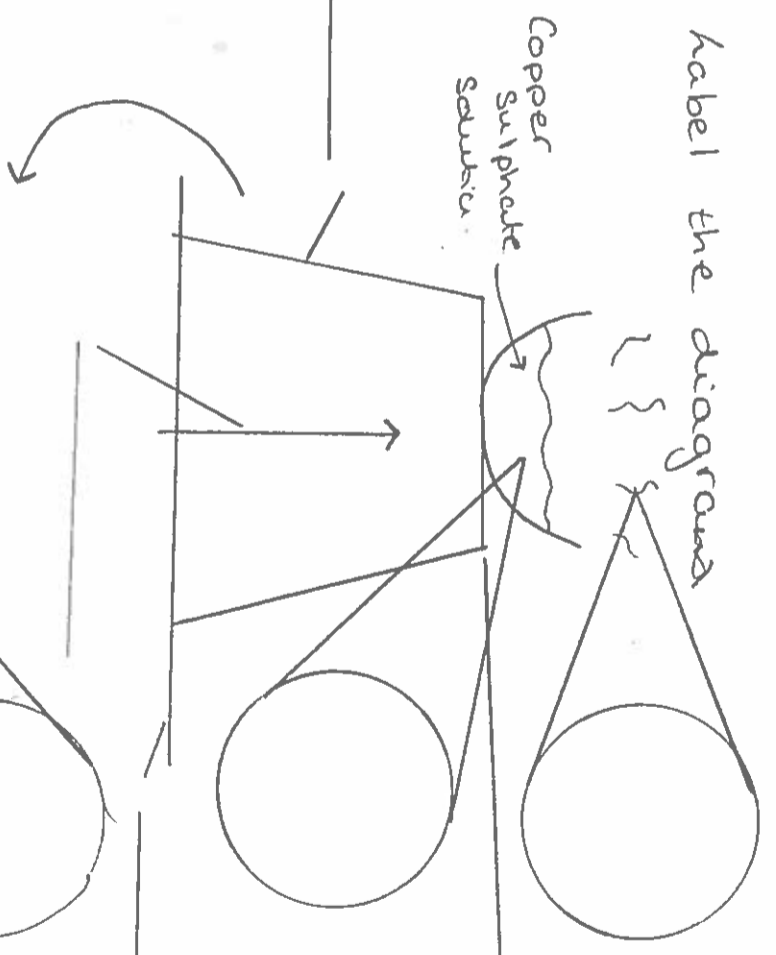

Draws particle diagrams to show what happens in filtration.

Label the diagram

Evaporation

Evaporation is used to _____

Label the diagram

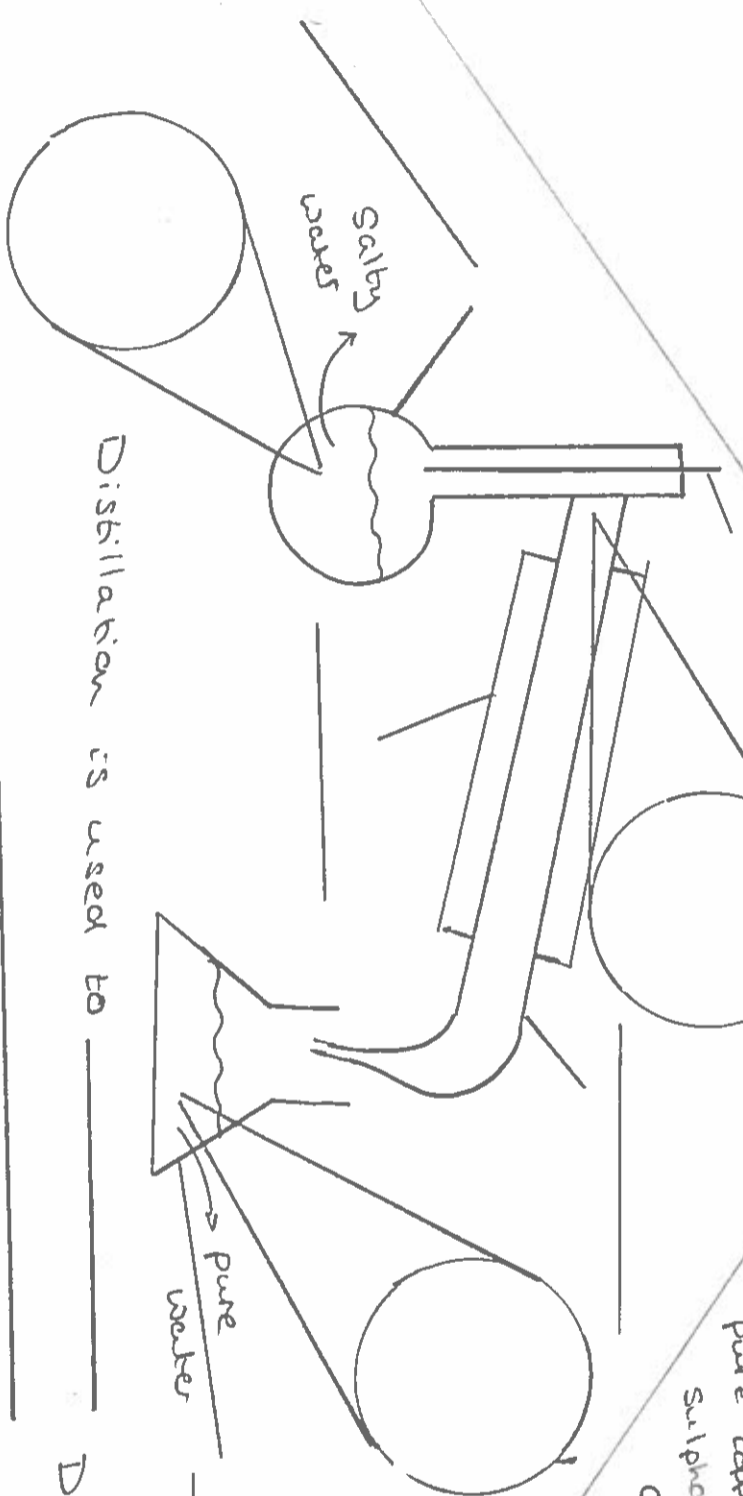

pure copper sulphate crystals

Draws particle diagrams to show what happens in evaporation.

Distillation

Distillation is used to _____

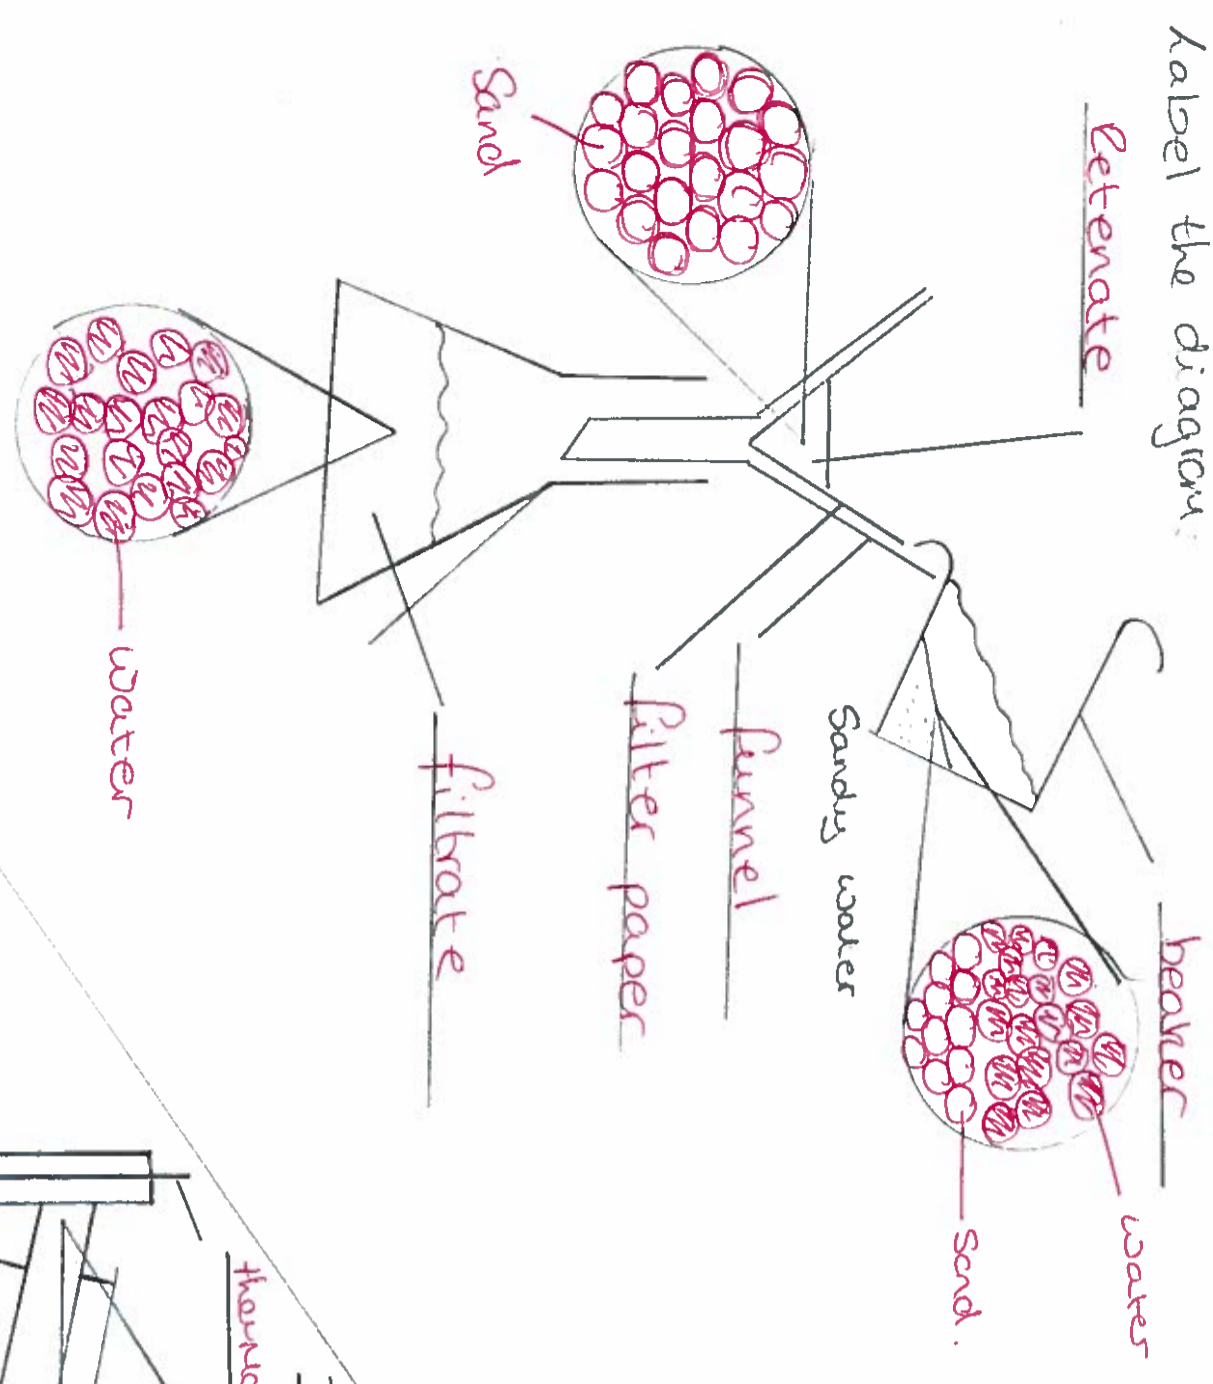

pure water

Draws particle diagrams to show what happens in distillation.

Filtration

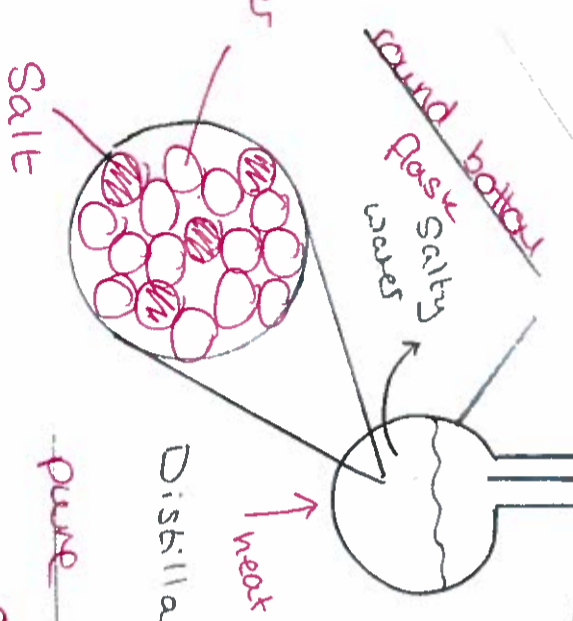

Filtration is used to separate a liquid from an insoluble solid.
↳ Does not dissolve.

Label the diagram:

Draws particle diagrams to show what happens in filtration.

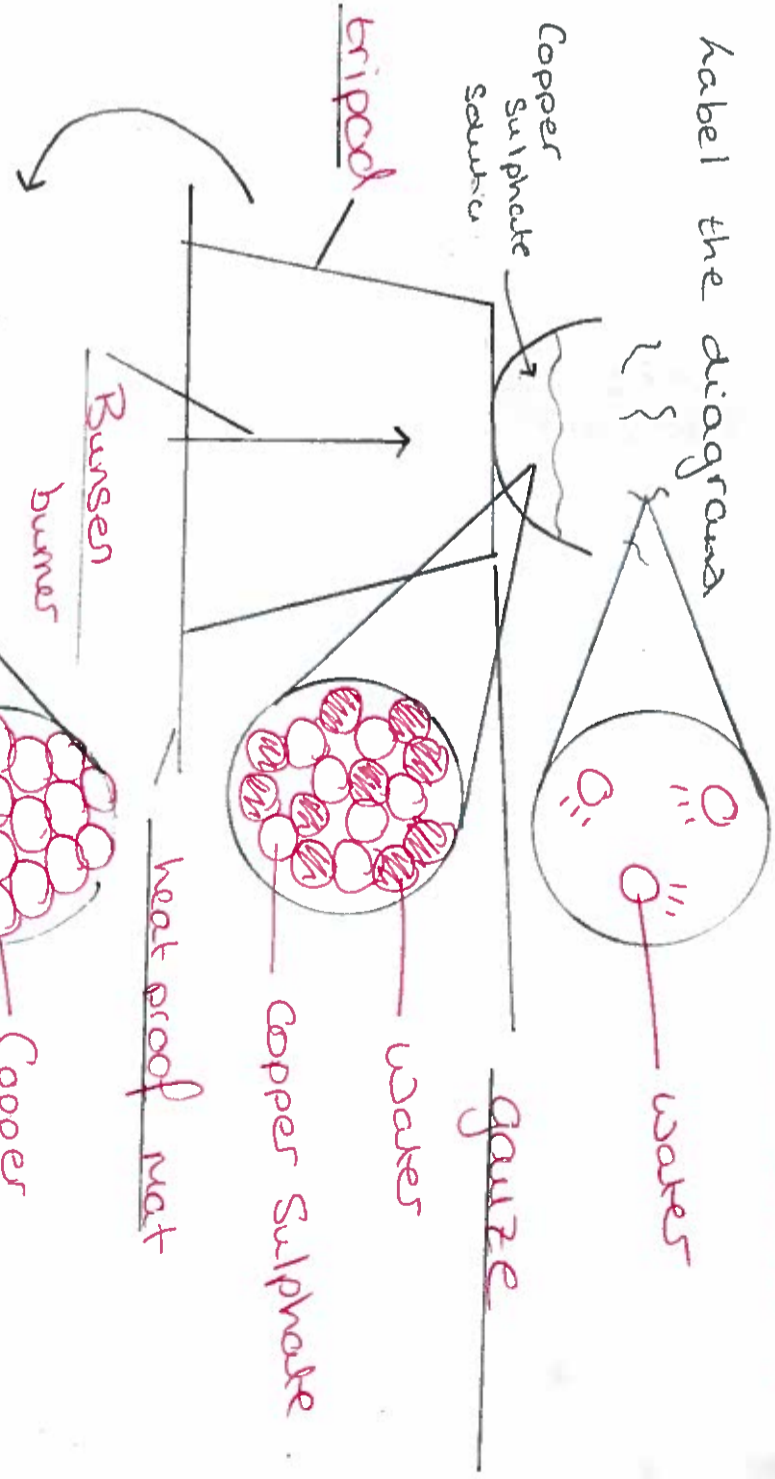

Label the diagram

Evaporation

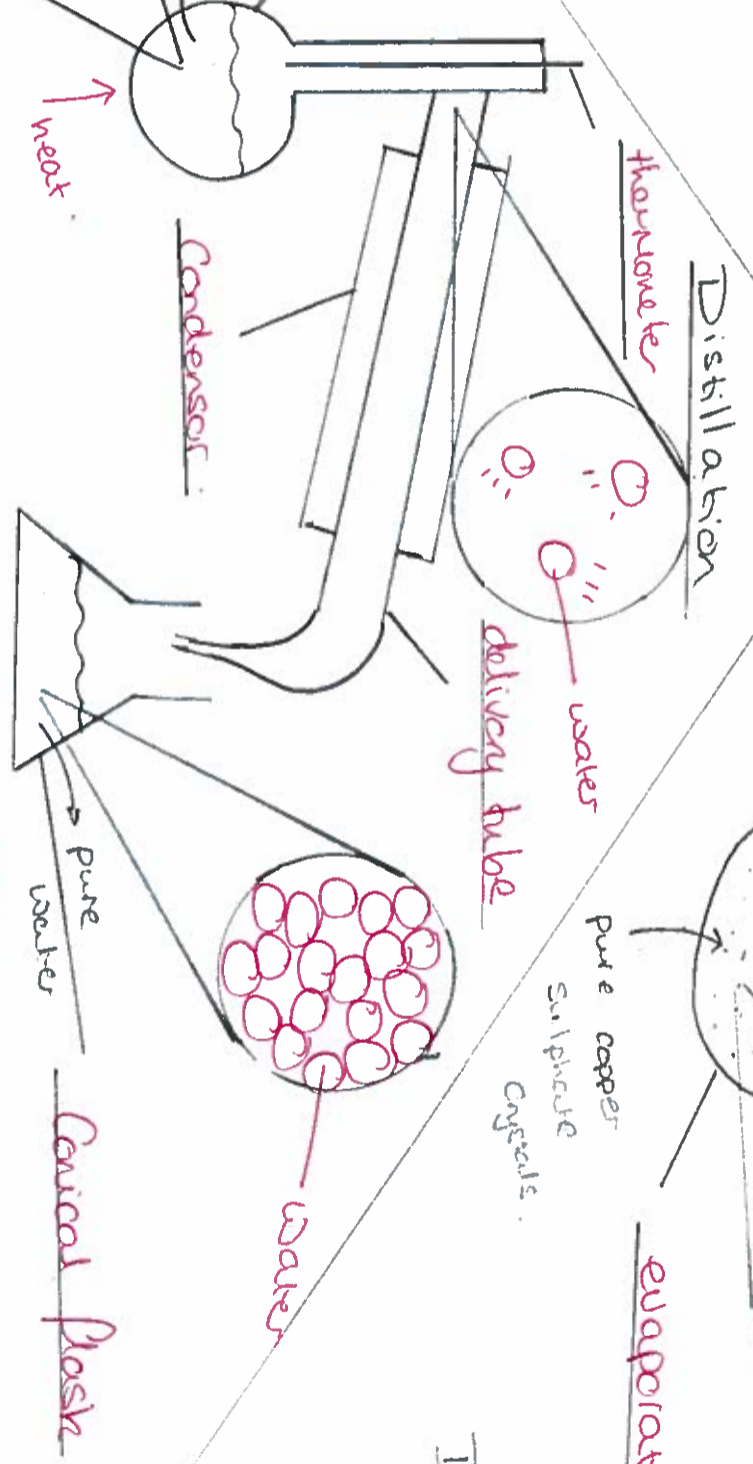

Evaporation is used to separate a soluble solid from a liquid dissolved.

Label the diagram:

Draws particle diagrams to show what happens in evaporation.

Label the diagram

Distillation is used to separate a pure liquid from a mixture either two liquids of a dissolved

Draws particle diagrams to show what happens in

distillation.
